## A Note from Administration

Welcome back, BPA Riverview families! As we begin our MISSION this year, all things become POSSIBLE! A note for you:

### Why Family and Community Involvement is Important

(from: <https://safesupportivelearning.ed.gov/training-technical-assistance/education-level/early-learning/family-school-community-partnerships>)

Parents, here at BridgePrep, we value you! We cherish all the hard work you put in making sure the community of BridgePrep continues to promote school-wide values and responsibilities expected of every student, teacher, and staff member. This is why we would like to talk about *community partnerships*.

*"Family-school-community partnerships are a shared responsibility and reciprocal process whereby schools and other community agencies and organizations engage families in meaningful and culturally appropriate ways, and families take initiative to actively supporting their children's development and learning."*

By working together, we are helping to improve our student's academic future. We are a growing rich-and-diverse population full of eager-to-learn children. When we work with our teachers, we are helping them help your children grow beyond expectations.

When the community comes together, our children attend school more regularly and are more motivated to succeed. When your child sees you or a community partner willingly helping out, they will see positive role-models who exhibit all the character traits we want in our future leaders!
