A Note from Administration

According to Attendance Works, when students improve their attendance rates, they improve their academic prospects and chances for graduating. Are you helping your child's chances? Having your child present and on time is very vital for their academic success. As we continue to strengthen our parent-school partnership, we encourage you to do your part by getting your child here. We want them present physically and mentally. Success is sure to come then!

**Character Trait of the
Month:**
Cooperation

KINDER- GARTEN
